Title:	Development of Commissioning and Procurement Arrangements for the Mental Health Care and Support Market
Summary:	<p>This report sets out the proposals to develop a specialist framework for care and support services for people with mental health needs. Care and support is currently delivered to people in their own home or in shared accommodation settings. The market also supports people to receive rehabilitation services to improve their mental health.</p> <p>Mental Health services for working age adults in Lancashire are delivered through various arrangements, many of which involve partnerships with NHS bodies both at a service level and certainly at a whole system level.</p> <p>The framework will introduce a new specification with clearly defined outcomes, quality requirements and seeks to incentivise providers to promote rehabilitation with a new fee structure which will manage costs.</p>
