Key Stage 4: Year 11: Age 16

In 2016-17 there was:

- Increase of 0.3% of pupils achieving equivalent of 5 A*-C including English and Maths.
- CLA achieving 5 A*-G, including Maths and English remains at the same level - 30%.
- It is considered that GCSE examinations were more challenging in 2017 due to the reduction in coursework, more challenging courses and a raising of the threshold to achieve the equivalent of a C grade. The return to a final examination for the majority of GCSE courses can be seen to disadvantage pupils with the profile of some looked after children i.e. Special educational needs, changes of home placement, changes of school - especially in KS4.
- We will not have Attainment 8 scores until national statistics released - due March 18th but we may have some data sooner though the NCER pilot which Lancashire is part of - our average A8 score in 2015-16 for CLA was 22, national average for CLA 20.8, Average A8 score for all Lancashire pupils was 47.43%.
- Unvalidated average A8 score for all Lancashire pupils 2017 is 45.4
