Executive Summary

The government announced a five year funding settlement for the NHS in June 2018; an additional £20.5 billion a year in real terms by 2023/2024. In response to this, the NHS Long Term Plan has been developed and was published in January 2019.

The purpose of the discussion today is to apprise the Health and Wellbeing Board of the content of the plan and to discuss how we accelerate greater collaboration and enhanced system working to deliver the ambitions outlined within the plan.

Recommendation

The Health and Wellbeing Board is recommended to:

Note the contents and key deliverables of the plan, and discuss next steps in implementation.

Background

As outlined within the executive summary above.

List of background papers

- The NHS Long Term Plan and summary documents are attached to this report at Appendix 'A' and 'B' and accessible via <https://www.longtermplan.nhs.uk/>.
