Strategy - Priority shifts

- **Shift resources towards interventions** that prevent ill health and reduce demand for acute and residential services.
- **Build and utilise the assets, skills and resources** of our citizens and communities.
- **Promote and support greater individual self-care** and responsibility for health; making better use of information technology and advice.
- **Commit to delivering accessible services** within communities; improving the experience of moving between primary, hospital and social care.
- **Pooling budgets and resources** to focus on priority outcomes.
- **Work to narrow the gap** in health and wellbeing and its determinants.

Outcomes by Jan 13

- The role, function and leadership of the Board is understood by Board members (in the context of delivery of the strategy).
- Board members understand and are committed to the Health and Wellbeing strategy (what contribution the sector you represent will make and what contribution your organisation will make).
- The Health and Wellbeing interventions are underway and are delivering early results, (again what contribution board members will make to their success).
