Executive Summary

The Health and Wellbeing Board will receive a further update in relation to life expectancy and health and wellbeing outcomes for people with learning and disabilities and their carers.

The report is to update the Health and Wellbeing Board to the findings of the 3rd Annual National Mortality Review report and how this has been implemented locally and to highlight the health inequalities suffered by people with Learning Disability and/or Autism across Lancashire and South Cumbria.

Recommendations

The Health and Wellbeing Board is recommended to:

- Implement the learning into action across Lancashire and South Cumbria.
- Ensure reasonable adjustments are made in relation to people with Learning Disability and/or Autism across the region.
- To ensure the Learning Disabilities Mortality Review (LeDeR) programme is publicised across the region.

Background

The report will highlight the National Learning and Disability Mortality Review programme (LeDeR) and how this is being undertaken across Lancashire and South Cumbria. It will also include the findings from the 3rd National annual report and the work that has been undertaken in reviewing the deaths of people with Learning Disability and/or Autism and what is being done to prevent further early deaths. The report also highlights the challenges faced completing the reviews, the number of deaths across the Lancashire and South Cumbria and what has been learned from the completed reviews.
