Section 4

Equality Analysis Toolkit

Insert EAT subject here
For Decision Making Items

November 2011
What is the Purpose of the Equality Decision-Making Analysis?

The Analysis is designed to be used where a decision is being made at Cabinet Member or Overview and Scrutiny level or if a decision is being made primarily for budget reasons. The Analysis should be referred to on the decision making template (e.g. E6 form).

When fully followed this process will assist in ensuring that the decision-makers meet the requirement of section 149 of the Equality Act 2010 to have due regard to the need: to eliminate discrimination, harassment, victimisation or other unlawful conduct under the Act; to advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it; and to foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

Having due regard means analysing, at each step of formulating, deciding upon and implementing policy, what the effect of that policy is or may be upon groups who share these protected characteristics defined by the Equality Act. The protected characteristic are: age, disability, gender reassignment, race, sex, religion or belief, sexual orientation or pregnancy and maternity – and in some circumstance marriage and civil partnership status.

It is important to bear in mind that "due regard" means the level of scrutiny and evaluation that is reasonable and proportionate in the particular context. That means that different proposals, and different stages of policy development, may require more or less intense analysis. Discretion and common sense are required in the use of this tool.

It is also important to remember that what the law requires is that the duty is fulfilled in substance – not that a particular form is completed in a particular way. It is important to use common sense and to pay attention to the context in using and adapting these tools.

This process should be completed with reference to the most recent, updated version of the Equality Analysis Step by Step Guidance (to be distributed) or EHRC guidance - [EHRC - New public sector equality duty guidance](#).
Document 2 "Equality Analysis and the Equality Duty: Guidance for Public Authorities" may also be used for reference as necessary.

This toolkit is designed to ensure that the section 149 analysis is properly carried out, and that there is a clear record to this effect. The Analysis should be completed in a timely, thorough way and should inform the whole of the decision-making process. It must be considered by the person making the final decision and must be made available with other documents relating to the decision.

The documents should also be retained following any decision as they may be requested as part of enquiries from the Equality and Human Rights Commission or Freedom of Information requests.

Support and training on the Equality Duty and its implications is available from the County Equality and Cohesion Team by contacting

AskEquality@lancashire.gov.uk

Specific advice on completing the Equality Analysis is available from your Directorate contact in the Equality and Cohesion Team or from Jeanette Binns

<td>The Proposed Closure of Out Rawcliffe Church of England Primary School</td>
</tr>
</tbody>
</table>

**What in summary is the proposal being considered?**

| Cabinet Member for Children and Schools is the Decision Maker in respect of a proposal made by Lancashire County Council to close Out Rawcliffe CE Primary School with effect from 31 August 2013. The proposal has been brought under procedures established by The Education and Inspections Act 2006 and The School Organisation (Establishment and Discontinuance of Schools)(England) Regulations 2007 which require full consultation prior to taking a final decision. Following consultation with the school's governing body and Blackburn Diocese, the proposal to close the school was made due to concerns about the future educational and financial viability of the school. |

Is the decision likely to affect people across the county in a similar way or are specific areas likely to be affected – e.g. are a set number of branches/sites to be affected? If so you will need to consider whether there are equality related issues associated with the locations selected – e.g. greater percentage of BME residents in a particular area where a closure is proposed as opposed to an area where a facility is remaining open.

| The proposal, if approved, will directly affect the ten children currently on roll and their families who will need to secure places at alternative education provision. Lancashire County Council and Blackburn Diocese will assist in this process and Lancashire County Council will provide assistance with transport to alternative provision for any children that are eligible under the authority's current transport policy. The proposal, if approved, could also impact on those who may wish their children to attend Out Rawcliffe CE Primary School in the future in addition to any impact on the residents of the small rural community of Out Rawcliffe. |
Could the decision have a particular impact on any group of individuals sharing protected characteristics under the Equality Act 2010, namely:

- Age
- Disability including Deaf people
- Gender reassignment
- Pregnancy and maternity
- Race/ethnicity/nationality
- Religion or belief
- Sex/gender
- Sexual orientation
- Marriage or Civil Partnership Status

In considering this question you should identify and record any particular impact on people in a sub-group of any of the above – e.g. people with a particular disability or from a particular religious or ethnic group.

It is particularly important to consider whether any decision is likely to impact adversely on any group of people sharing protected characteristics to a disproportionate extent. Any such disproportionate impact will need to be objectively justified.

The proposal will impact predominantly on children aged 5 - 11 – at the moment 10 pupils are attending the school.

If you have answered "Yes" to this question in relation to any of the above characteristics, – please go to Question 1.

Yes

If you have answered "No" in relation to all the protected characteristics, please briefly document your reasons below and attach this to the decision-making papers. (It goes without saying that if the lack of impact is obvious, it need only be very briefly noted.)
Question 1 – Background Evidence

What information do you have about the different groups of people who may be affected by this decision – e.g. employees or service users (you could use monitoring data, survey data, etc to compile this). As indicated above, the relevant protected characteristics are:

- Age
- Disability including Deaf people
- Gender reassignment/gender identity
- Pregnancy and maternity
- Race/Ethnicity/Nationality
- Religion or belief
- Sex/gender
- Sexual orientation
- Marriage or Civil Partnership status (in respect of which the s. 149 requires only that due regard be paid to the need to eliminate discrimination, harassment or victimisation or other conduct which is prohibited by the Act).

In considering this question you should again consider whether the decision under consideration could impact upon specific sub-groups e.g. people of a specific religion or people with a particular disability. You should also consider how the decision is likely to affect those who share two or more of the protected characteristics – for example, older women, disabled, elderly people, and so on.

The school provides for mixed gender pupils aged 5 to 11. The Ofsted Inspection Report dated 12th January 2012 stated that the school provides for pupils predominantly of White British heritage, with a very low proportion speaking English as a second language. There is a relatively high proportion of children on roll with special educational needs.
Question 2 – Engagement/Consultation

How have you tried to involve people/groups that are potentially affected by your decision? Please describe what engagement has taken place, with whom and when.

(Please ensure that you retain evidence of the consultation in case of any further enquiries. This includes the results of consultation or data gathering at any stage of the process)

Full consultation has taken place in accordance with DfE guidance "Closing a Maintained Mainstream School, a Guide for Local Authorities and Governing Bodies‘ which included consultation with children during stage 1 of the process.

The result of the stage 1 consultation was reported to Cabinet Member for Children and Schools on 27 September 2012 and the result of the consultation at representation stage is included in the report to Cabinet Member for Children and Schools dated 11th January 2013.

Question 3 – Analysing Impact

Could your proposal potentially disadvantage particular groups sharing any of the protected characteristics and if so which groups and in what way?

It is particularly important in considering this question to get to grips with the actual practical impact on those affected. The decision-makers need to know in clear and specific terms what the impact may be and how serious, or perhaps minor, it may be – will people need to walk a few metres further to catch a bus, or to attend school? Will they be cut off altogether from vital services? The answers to such questions must be fully and frankly documented, for better or for worse, so that they can be properly evaluated when the decision is made.

Could your proposal potentially impact on individuals sharing the protected characteristics in any of the following ways:
- Could it discriminate unlawfully against individuals sharing any of the protected characteristics, whether directly or indirectly; if so, it must be amended. Bear in mind that this may involve taking steps to meet the specific needs of disabled people arising from their disabilities.

- Could it advance equality of opportunity for those who share a particular protected characteristic? If not, could it be developed or modified in order to do so?

- Does it encourage persons who share a relevant protected characteristic to participate in public life or in any activity in which participation by such persons is disproportionately low? If not, could it be developed or modified in order to do so?

- Will the proposal contribute to fostering good relations between those who share a relevant protected characteristic and those who do not, for example by tackling prejudice and promoting understanding? If not, could it be developed or modified in order to do so? Please identify any findings and how they might be addressed.

Whilst the proportion of children with special educational needs was reported as well above average by Ofsted, this was based on an overall number on roll of 16 pupils at the time and does not, therefore, represent significant numbers of pupils. Any funding supporting pupils will transfer to the receiving school and parents/careers will be able to express a preference for alternative provision which accords with their child’s needs. Parents of children displaced by the closure, if approved, will be able to express a preference for alternative schools. The neighbouring schools all have higher educational standards, as assessed by Ofsted, than Out Rawcliffe CE, which will facilitate improved educational attainment for current and future pupils. Should pupils want a place at an alternative Church of England primary school, there are places available at a neighbouring Church of England primary school for all the pupils affected by the proposal.
Being located in a rural community, some of the pupils on roll at Out Rawcliffe CE already have assistance with school transport from the local authority and all pupils will be assessed for eligibility with transport assistance if the closure proposal is approved, and once they have been allocated a place at an alternative school.

**Question 4 – Combined/Cumulative Effect**

Could the effects of your decision combine with other factors or decisions taken at local or national level to exacerbate the impact on any groups?

For example - if the proposal is to impose charges for adult social care, its impact on disabled people might be increased by other decisions within the County Council (e.g. increases in the fares charged for Community Transport and reductions in respite care) and national proposals (e.g. the availability of some benefits). Whilst LCC cannot control some of these decisions, they could increase the adverse effect of the proposal. The LCC has a legal duty to consider this aspect, and to evaluate the decision, including mitigation, accordingly.

If Yes – please identify these.

No

**Question 5 – Identifying Initial Results of Your Analysis**

As a result of your analysis have you changed/amended your original proposal?

Please identify how –

For example:

Adjusted the original proposal – briefly outline the adjustments

Continuing with the Original Proposal – briefly explain why

Stopped the Proposal and Revised it - briefly explain

No
Question 6 - Mitigation

Please set out any steps you will take to mitigate/reduce any potential adverse effects of your decision on those sharing any particular protected characteristic. It is important here to do a genuine and realistic evaluation of the effectiveness of the mitigation contemplated. Over-optimistic and over-generalised assessments are likely to fall short of the “due regard” requirement.

Also consider if any mitigation might adversely affect any other groups and how this might be managed.

If the closure proposals are approved the local authority will assist parents to make preferences for alternative schools and assess their eligibility for assistance with school transport.

Question 7 – Balancing the Proposal/Countervailing Factors

At this point you need to weigh up the reasons for the proposal – e.g. need for budget savings; damaging effects of not taking forward the proposal at this time – against the findings of your analysis. Please describe this assessment. It is important here to ensure that the assessment of any negative effects upon those sharing protected characteristics is full and frank. The full extent of actual adverse impacts must be acknowledged and taken into account, or the assessment will be inadequate. What is required is an honest evaluation, and not a marketing exercise. Conversely, while adverse effects should be frankly acknowledged, they need not be overstated or exaggerated. Where effects are not serious, this too should be made clear.

The proposals have been made in accordance with by The Education and Inspections Act 2006; The School Organisation (Establishment and Discontinuance of Schools)(England) Regulations and DfE guidance 'Closing a Maintained Mainstream School, a Guide for Local Authorities and Governing Bodies'. The cabinet reports dated 8 May 2012; 27 September 2012 and 11 January 2013 provide full reasons for the proposal; details of the local authority's powers and responsibilities
around school place commissioning and the provision of high quality school provision for pupils; and the benefits to pupils in attending alternative schools with higher educational standards as judged by Ofsted.

**Question 8 – Final Proposal**

In summary, what is your final proposal and which groups may be affected and how?

To close Out Rawcliffe CE Primary School with effect from 31 August 2013. The main groups affected are children and families of pupils currently attending the school.

**Question 9 – Review and Monitoring Arrangements**

Describe what arrangements you will put in place to review and monitor the effects of your proposal.

Once a decision has been taken to close the school the authority is legally obliged to implement the proposal. Children's attainment at alternative schools will be monitored.
