<ul style="list-style-type: none">• Additional capital requirements for 2023/24 to be provided by services before the end of July for consideration by EMT / Cabinet as part of the 2023/24 budget process.	
<p>Progress:</p> <ul style="list-style-type: none">• On 3 November 2022 Cabinet agreed the budget and savings proposals for 2023/24. The financial forecast reported to Cabinet in September, identified an estimated financial gap of £87.054m in 2023/24, rising to £159.678m by 2026/27 which reflected the financial pressures common across local government. The savings were generally focused on areas which would reduce cost or generate additional income without impacting negatively on service quality. There were also several cross cutting strategic targets that were included that would further support reducing the financial gap and improve the efficiency and effectiveness of the organisation. The savings that have been agreed to date are being closely monitored. There is a combination of savings that were planned to be delivered in 2021/22 or earlier and were delayed due to the pandemic, and the budgeted savings agreed to be reprofiled for 2022/23.• On 17th November 2022, the Autumn Statement took place, with the Chancellor of the Exchequer providing details of both additions and reductions in funding for the local government sector overall and changes to costs, such as the National Living Wage. Whilst an initial assessment suggests that the impact of the funding changes announced in the statement should be positive overall for the 2023/24 budget position, there is uncertainty about the actual impact on individual council funding allocations until further information is made available.• Capital Board meets fortnightly and has senior membership from all key service areas
