### **Executive Summary**

Lancashire County Council as administering authority of the Lancashire County Pension Fund has responsibility for ensuring that there is effective risk management in place in relation to the operations of the Fund. This requirement is reflected in both the investment regulations and guidance issued by the Chartered Institute of Public Finance and Accountancy (CIPFA).

The Lancashire County Pension Fund Risk Register was approved by the Committee at its meeting on 27 March 2014, where it was indicated that updates to the risk register would be provided at six monthly intervals.

Accordingly, the risk register has been reviewed by risk owners in order for any new risks to be identified, and for details of existing risks to be confirmed or amended in order to ensure that, where possible, appropriate controls are in place.

Details of the areas currently designated as 'high' risk are separately identified.

### **Recommendation**

The Committee is asked to review the updated Risk Register shown at Appendix 'A', make any suggestions for amendments and approve the updated Risk Register.

### **Background and Advice**

Risk management is the practice of identifying, analysing and controlling in the most effective manner all threats to the achievement of the strategic objectives and operational activities of the organisation.

It is not a process for avoiding or eliminating risk although that may be a consequence of the risk mitigation measure deployed. A certain level of risk is inevitable in achieving objectives, particularly in an operation such as the Pension Fund which is exposed to a wide range of investment related risks but it must be controlled.

The Risk Register, approved by this Committee on 27 March 2014, identified the following category of risk:

- Investment and funding risk;
- Employer risk;
- Skill and resource risk;
- Governance and compliance risk;
- Reputational risk; and
- Administration risk.

Each of the risks, in the areas above, have been reviewed again by the allocated owners in terms of its impact on the Fund as a whole, on the fund employers, and on the reputation of the Pension Fund Committee and Lancashire County Council as administering authority. Assessment has also been given to the likelihood of the risk.

The impact and likelihood has then been scored on a scale of one to four (one being low risk, four being high risk) in order to assess whether the overall risk level is low, medium or high. The risk owners then assess whether there are any mitigating factors in place which could reduce the level of risk, and the risk score adjusted accordingly. Review dates for individual risks are also revisited.

It was previously indicated that updates to the risk register approved by the Committee at its meeting on 27 March 2014 would be provided at six monthly intervals. Accordingly, the risk register has been reviewed and updated, and can be found at Appendix 'A'. During the review, two new risks were identified, and these are relate to:

- I019 – Potential changes to LGPS investment regulations – 'Medium' High;
- G010 – Changes to LGPS Fund governance regulations – 'Medium/ High'.

The following risks are currently designated as 'high':

- I004 – Falling share prices and asset values;
- I006 – Liability risk – discount rate;
- I007 – Liability risk – inflation rate;
- I009 – Liability risk – longevity;
- I011 – Liability risk – diversification;
- I012 – Liability risk – LGPS regulations;

The risk register will continue to be reviewed on a regular basis, and updates provided to the Committee as indicated.

## **Consultations**

N/A

## **Implications:**

This item has the following implications, as indicated:

### **Risk management**

The Pension Fund Committee is the body charged with exercising the County Council's responsibilities as administering authority of the Pension Fund, and accordingly takes the responsibility for ensuring that there is effective risk management over those operations.

The register included as Appendix 'A' seeks to assess specific risks relating to Lancashire County Pension Fund and introduce a measure of consistency into the risk assessment process.
