

# **Feed back from LINX on Independent Reviewing Officers Annual Report**

# What we like:

- The proportion of Looked After Children placed outside Lancashire's boundaries is low (just under 4%)

- Increase in the number of meetings chaired by Independent Reviewing Officers.

# What we are concerned about:

- Caseloads are consistently higher than they should be.

- There has been a slight drop in performance of reviews being completed on time.

# Questions for the Future:

- How will you address the Drop in performance of reviews being held on time?
  - How will you strengthen communication between Looked After Children and their Independent Reviewing Officers outside formal reviews?
  - Not all Children and Young People have face time so how else will you communicate with them?
- How will you cope with increasing numbers of Looked After Children?
- How will you try to involve more young people in their reviews?

# Thank You
