

Environment Directorate Capital Programme 2015-16
A, B & C Roads and Footway schemes for consideration
- Preston

The current position for the 2015/16 capital programme

The Environment Directorate is currently preparing its capital programme for 2015/16 and we have now been notified of the final settlements from central government. The proposed maintenance allocations were approved by Full Council on the 12 February 15. Officers are currently finalising the scheme lists for each of the 2015/16 maintenance programmes. The maintenance of assets and road safety programmes are scheduled to be approved by County Councillor Fillis in March 2015.

Members will recall that the county council has adopted a Transport Asset Management Plan (TAMP), which sets out priorities for funding over a 15 year period.

The directorate presented a draft programme of work to the last 3 Tier Forum in line with the principles set out in the TAMP for ABC's and Footways. The ABC list has been further developed and more accurate estimates have been established for the carriageway and inlay schemes. The ABC and footways scheme lists are overleaf for your information.

2015/16 A, B and C Road Programme

The draft countywide ABC programme is listed on pages 3-8. The schemes planned for delivery in your district next year are highlighted in grey. A summary of the schemes being proposed for funding in your district is provided on page 9.

The TAMP promotes a preventative approach to maintenance and recommends the use of surface dressing to prolong the life of the asset. Many of the ABC schemes in the draft programme have been identified for surface dressing in 2015/16. These roads have been pre patched in 2014/15 in preparation for surface dressing, and will be inspected shortly before the start of the surface dressing programme to ensure the sites remain suitable for the treatment. In addition the programme includes a number of sites which require more significant and costly treatments, such as resurfacing, due to deterioration of the road surface beyond a condition which will allow surface dressing. These schemes will be addressing the parts of the network in the poorest condition.

2015/16 Footway Schemes

The footways programme on page 10 comprises those sites which are considered a priority for treatment in your district in 2015/16. They form the second year of a three year programme intended to significantly reduce the numbers of safety defects in the footway network. Further condition information relating to the footway network is continuing to be gathered by video survey, and this information will form the basis of future programmes.

The proposed footway programme has been developed on a district by district basis, by assigning a condition rating for the road, using a 1 – 6 condition rating framework. Local technical engineers have then used their local knowledge and experience to determine the priority of those classed as 6 (poorest condition requiring extensive major work). Other considerations include the number of reported defects, the number of enquiries/complaints received, and input from Members.
