

Corporate Parenting Board Activity

On your tables please look at the terms of reference and say whether you think we have achieved what we wanted to do?

Where possible can you give examples/evidence on how we have achieved them?

Can you also look at the Co-opted Membership list and see if there are any that you would want to attend every meeting or if there is anyone you think we should invite that is not on the list.

Can you look at whether there are any particular themes you would want to look at in more detail?
