Clinical Commissioning Group**

Context

- Case for Change – Current state
- Future State – Developing new models of care
- Our Locality Footprints
- Next Steps

Case for Change – Current Status

- Demand on all public services is growing, and at a time when spending is decreasing
- Our population is increasing, and at the same time residents are living longer with more complex health problems
- The NHS and public services are facing unprecedented levels of activity and change is required
- It is widely recognised that the health economy needs to work together to transform the way we deliver services – across the patch, so that patients are treated in the most appropriate settings for their needs, supported closer to home and are able to easily navigate a currently complex healthcare system when they need it most

Future State - Developing new models of care

- We are working on three areas within the Our Health Our Care Programme to look at how we can make our health economy clinically and financially sustainable for the long term.
 - Prevention, early help and self care
 - Integrated localities
 - In hospital care
- This programme will take a medium to long term view on how our future models of care will need to operate, and will put in place plans for implementation
- The programme will join up providers and commissioners of local health and care services, working together in a clinically led process to develop and implement new models of health and care

Locality Footprints

- Using Lancashire County Council Service Planning Areas
- Overlaying GP Practice information and registered population numbers
- Including Primary Care Estates Strategy

Locality Map

3 Integrated Localities

Chorley

South Ribble

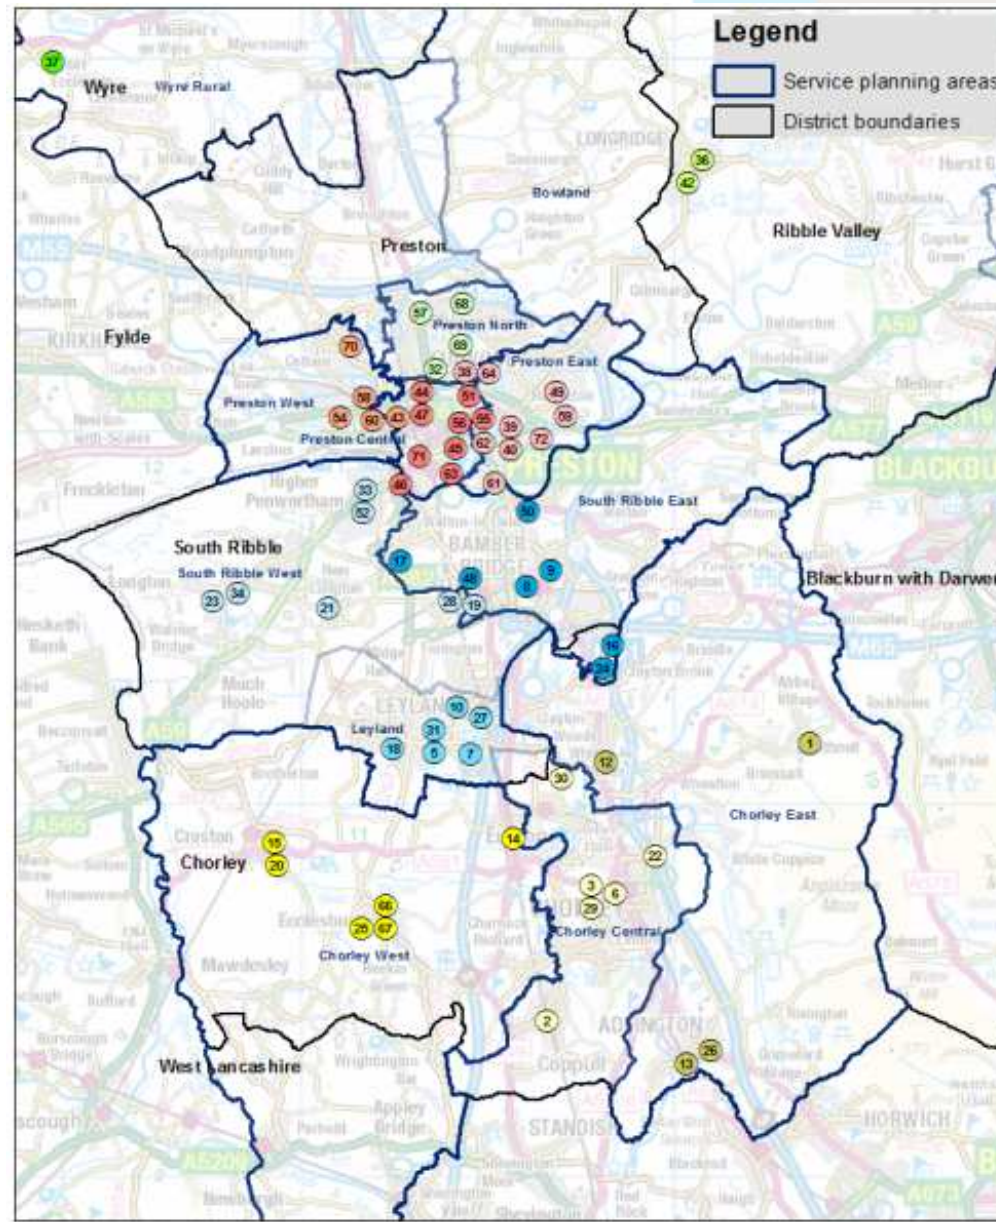

Preston

10 Service Planning Areas

Chorley: Central, East and West

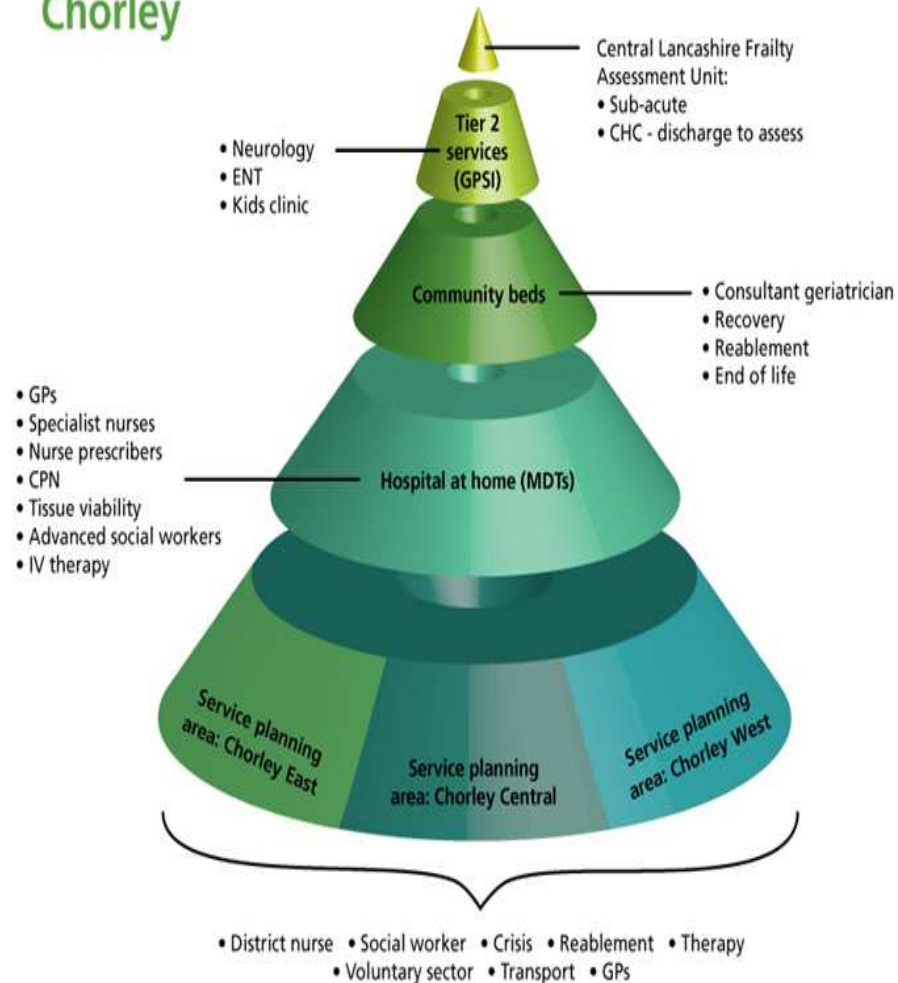

Preston: Central, North, East and West

South Ribble: East, West and Leyland

Chorley

Chorley

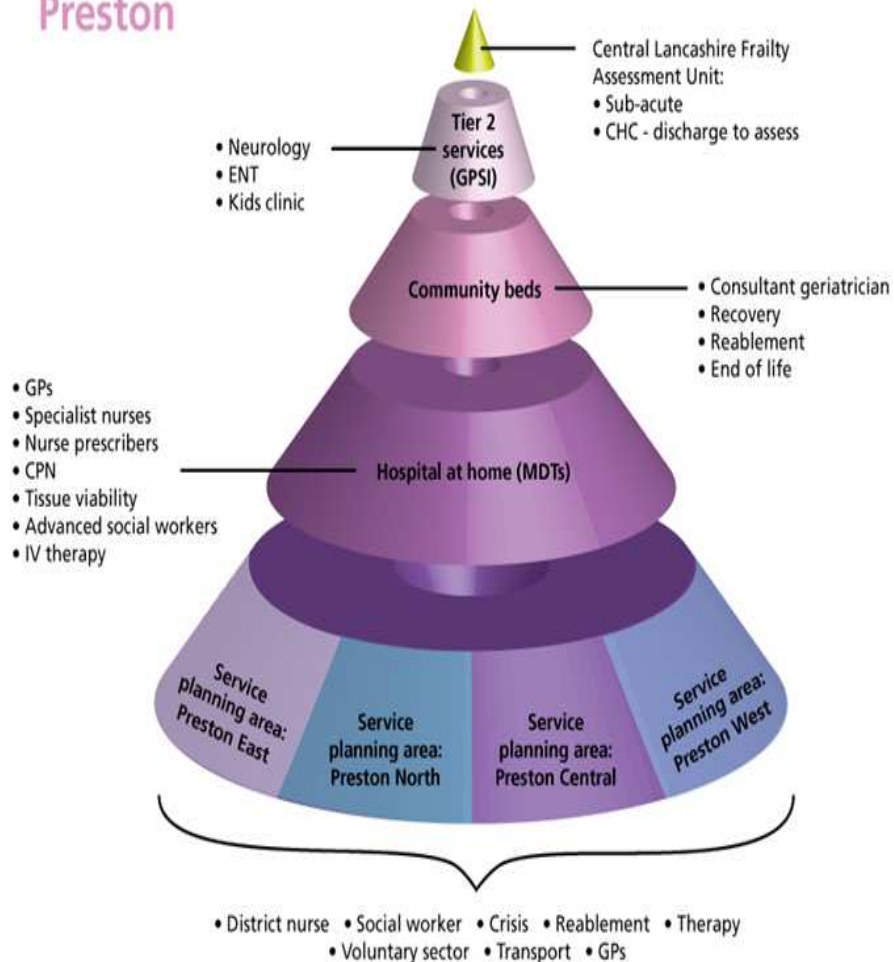

3 service planning areas:

- **Chorley East**
31,362 population
4 Practices
Patient Reg No
- **Chorley West**
30,026 population
4 Practices plus 2 Branches
Patient Reg no
- **Chorley Central**
47,137 population
Practices plus 1 Branch
Patient Reg no

Preston

Preston

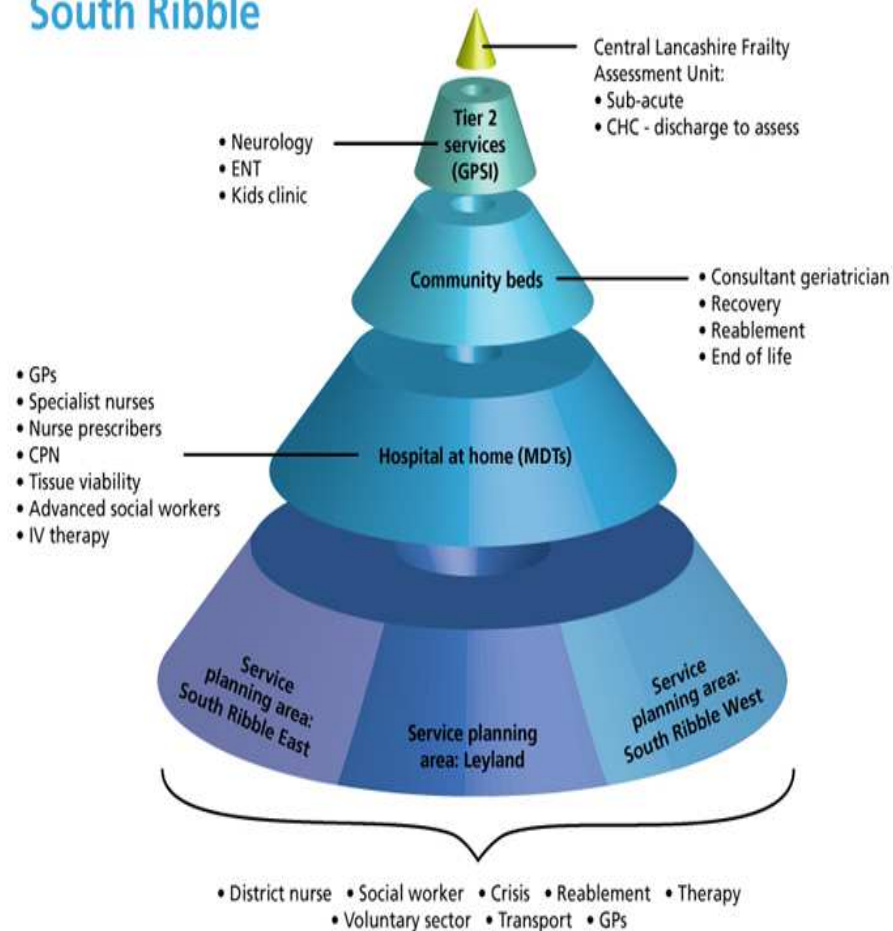

4 service planning areas:

- **Preston East**
37,704 population
8 Practices plus 1 Branch
Reg patient Nos
- **Preston West**
29,835 population
4 Practices plus 1 Branch
Reg patient Nos
- **Preston Central**
36,412 population
10 Practices plus 1 Branch
Reg patient Nos
- **Preston North**
23,993 population
3 Practices plus 2
Branches
Reg patient Nos

South Ribble

South Ribble

3 service planning areas:

- **South Ribble East**
49,437 population
7 Practices
Reg patient Nos
- **South Ribble West**
32,703 population
7 Practices
Reg patient Nos
- **Leyland**
32,217 population
6 Practices
Reg patient nos

Our Next Steps

- To understand the demographic population health needs in each area, and the current provision of services
- To redesign how these services are provided, wrapping them around the patients and the needs of the area
- This will be done with local communities, and we will need to ensure we provide the appropriate mechanisms for them to be involved and engaged in the process
- We aim to start these conversations with the public in the autumn, developing the new models of care by the end of 2016/2017
