

Delivering the AONB Management Plan

Issue for consideration

In October 2011, the Joint Advisory Committee approved a rolling three-year AONB team business plan. This report and appendices summarise the progress made during 2011/12 towards delivery of the 'Year 1' targets in this business plan; detailing achievements, highlighting some key projects and activity and also the on-going annual review of the business plan.

a) AONB team business plan 2011/12 update
(Appendix B refers)

This update provides detailed information on achievement of 'Year 1' targets for the AONB team business plan.

b) AONB team report
(Appendix C to be tabled at the meeting)

This report is a summary of some key AONB projects developed and delivered by the AONB team over the last six months.

c) Draft AONB team business plan 2012/13
(Appendix D refers)

An annual review of the AONB team business plan is currently underway. And a draft of the plan is attached for JAC members to view. This draft contains no significant changes to last year's plan. However, there may still need to be some minor amendments made following consultation with AONB partners.

Decision to be taken

The Committee is asked to:

- i. note the reports and offer comments on AONB team activity during 2011/12.
- ii. agree a 'working' AONB team business plan for 2012/13, before presentation of the final plan at the next committee meeting in October 2012.
