

Lancashire Safeguarding Children Board Annual Report 2015-16

Purpose of the report and Summary

To present the [2015-16 annual report](#) of the Lancashire Safeguarding Children Board (LSCB) which shares the work that the LSCB and its partners have done over the last year.

Background

The LSCB has a statutory responsibility to ensure the effectiveness of work undertaken by agencies to safeguard children in Lancashire. This Annual Report, reflects on the work undertaken in this regard during 2015-16, and provides information about services and their effectiveness. A summary has been created and agreed by young people and is attached at appendix A.

The Board is required to have an Independent Chair and has the responsibility to promote and safeguard the welfare and interest of children, young people and their families. The Chair of the Board is accountable to the Council's Chief Executive who is, in turn, responsible for ensuring its effectiveness.

Protocols are in place which establish the relationship between the LSCB, the Children and Young People's Trust Board and the Health and Well-being Board and to strengthen this link the Independent Chair of the LSCB has recently joined the Health and Well-being Board. The Director of Children's Services is a statutory member of the LSCB along with the Cabinet Member for Children, Young People and Schools who is a 'participating observer' on the Board.

Key Information and Questions for Board Members

It is clear that a great deal of work to safeguard children has taken place during the last twelve months. However, there are several areas that the LSCB remains concerned about:

- Ensuring services reach an appropriately high standard on a timely basis;
- Ensuring equality of services given the complexity and diversity of the administrative area especially in relation to deprivation rates;
- Poor health outcomes, especially infant and child death rates, alcohol and substance use and self-harm;
- Increasing numbers of Children Looked After from other local authorities (around 1000) and issues around levels of need and incidents of missing from home;
- Significant increases in children subject to Child Protection Plans;
- Increasing number of Child Sexual Exploitation referrals but no increase in recorded crime;
- Continuing development of effective early intervention and preventative.

In addition, the LSCB is particularly concerned about the quality and availability of appropriate Child and Adolescent Mental Health where the resource allocation is too low and progress towards improved services too slow. The level of concern regarding such issues resulted in the LSCB reporting its concerns to the Health and Well-being Board who responded by requiring a comprehensive review with the intention re-commissioning services from April 2016. While some additional services have been commissioned the outcome of the review in terms of service re-design is yet to be completed and has now been rolled into a broader transformation agenda with timescales running up to the end of 2020. The LSCB has expressed its serious concerns and is now receiving regular update report at its meetings.

The LSCB shares the concerns set out in the recent Ofsted inspection report and is working as part of the Improvement Board set up to ensure an effective response and has seen evidence of plans to restructure services, reduce caseloads of social workers and improve quality assurance. These things will take time to show an impact and at the end of 2015-16 it was not possible to identify significant improvement in practice.

The LSCB will continue to work with partner agencies to address all relevant concerns identified in the Annual Report.

Decisions required

- Consider the content of the Annual Report and identify any areas they may wish to comment on and any action they may wish to take.

Jane Booth: Independent Chair, Lancashire Safeguarding Children Board

Date of report production: 16 November 2016.
