Lancashire to Lead Carbon Reduction Plan

Last month the Government announced that companies bidding for major central government procurement contracts should have a carbon reduction plan in place that reflects the government's carbon reduction targets from September 2021. (See: <https://www.gov.uk/government/publications/procurement-policy-note-0621-taking-account-of-carbon-reduction-plans-in-the-procurement-of-major-government-contracts>).

Lancashire County Council resolves to match the Government requirement by requiring companies bidding for significant Lancashire County Council contracts, including through frameworks, to commit to Carbon Reduction Plans in line with the aspirations of Lancashire's Climate and Environment Programme.
