Why do you say this?

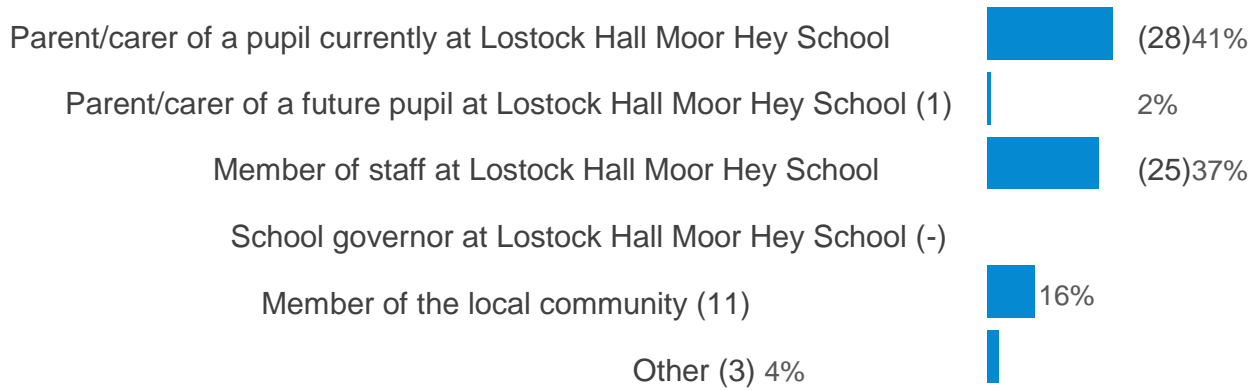

- This is a really good school and the pupils are very happy there. More places are needed for SEND children, so I absolutely agree with the increase in numbers. This will help those pupils who will gain the specialist support and education they need to help their development and life skills.
- The work done in this school saves millions in the later lives of the pupils because they require less support throughout life when they have a better education. This would not be possible in the normal school environment. More places in the face of greater need makes sound sense.
- I agree because more places are required to meet the educational needs of pupils with an EHCP
- We needs more places for kids with special needs
- It is a very inclusive school and each pupil have their own individual learning plan. Staff are very kind and approachable.
- I think it is a good school which will cater well for extra pupils.
- Moor hey is a very good school. We provide a very good level of education for pupils from Reception up to Year 11. A wide range of curriculum subjects both formal and semi-formal. Also sensory and mindful activities. Increasing the numbers would mean we would be able to offer more of this to more deserving young people in a safe learning environment so the at all levels.
- Think this is amazing being able to help more children in our local community
- Lack of special school places and poor LA SEN system because of this.
- Because demand for places is high
- There are lots of children who need a place in a special school and access to the specialist teaching
- Due to the increasing numbers of children with additional needs, this will give the opportunity for a local school to provide places to children rather than be sent to school further away.
- Anything that increases the ability and capacity of this school is greatly needed..Lancashire is short on special needs school placements. My son has traveled from skelmersdale to moorehey every for over 10yrs now.This school saved my son and should be able to place and offer more to the area .Thank you .
- There are more children in need of schools like this.
- More room for children who need it
- The places are needed
- I do feel more special school places are need to accommodate children with special educational needs.

- I strongly recommend this as this would benefit more children who did it Moorhey as gone above and beyond for my son which I am truly grateful for
- My daughter as well only started your school a couple of months ago and Rosie is really enjoying going to school and coming out a bit more in her self you have really help Rosie a lot
- It's a good school on a spacious site.
- As a very well run school I think more children would benefit from the changes to have same quality that Moorhey school can give
- It gives people the opportunity to have their child in the right setting. Every child has a right to an education and if it creates a place for a child that may be struggling at mainstream or unable to have a specialist place due to being full. As long as it doesn't impact on learning and class sizes then this is a great idea.
- Moor Hey school in my opinion is an excellent school, providing a safe environment for pupils and exceptional support for students and parents. The addition of an extra 20 pupils means that 20 more children can experience the amazing education, support and togetherness of this school.
- I thought the school has enough pupils, I think the school will need more teaching staff
- More places are needed to provide support for children with additional needs.
- This school is amazing and lots of special needs children struggling in mainstream schools with horrible uneducated staff. If more children who need can get special placement less will suffer.
- There is a serious lack of suitable school places for pupils with additional needs and therefore this proposal would benefit the children that are currently in schools that are unsuitable for their needs.
- can understand need more places for SEN children but for those who already there and need small groups, already fighting with crowds and noise issues, as my son affected by increasing the group numbers, as affected getting busier, louder and getting less attention. Which caused for us problems previously. Needed more often separated in quiet room, used more often the ear defenders and more meltdowns, not mention how affected new pupils again to their everyday system. If increasing meaning doing a separate group and keeping the small numbers then I can agree they need places.
- This will help massively as I know from my own experience, trying to get a place for the child I am a care for was extremely difficult.
- The support and education the children receive at Moor Hey is outstanding. By creating these extra classes will allow more children to benefit and flourish. The staff are fully committed to the children's education ensuring they achieve their full potential
- It is a good school that needs strengthening
- I have no objection as long as the extra student's doesn't affect the level of teaching.
- It's a great school and the pupils all benefit from being there
- There are not enough places for SEND provision in Lancashire, particularly for children with moderate learning difficulties and physical disabilities. Many of the schools are either complex learning needs or full of children with autism.
- I believe it will be most beneficial for the children who need the support of the school. It will also create more jobs and have a positive impact on the surrounding community.
- I believe this will be a positive experience for the school and the pupils attending. The school has enough land and space to extend and provide an excellent education to all pupils in the school's care.
- I work in the school and there is a need for more spaces.
- This is an excellent school and places are at a premium
- They need more places as more and more children are not getting the right education for their needs. The school deserves it for all they do for their pupils.
- I live by the school and they don't lock the school or the gates so pupils are always running out of school up the road offing and Jeffing. It's not secure there as anyone can just walk in and out. The school has a bad reputation.
- SEN places are needed within the Borough. Children are being failed in education due to the lack of special school placements.
- A wonderful school with the children at the heart

- I can only think this will be a good thing, as long as it doesn't impact on the children already attending the school
- Because the need is there. We would love to see Moorhey expand into senior school for the 16-19 year olds.
- Moor Hey is a superb school and if it has the chance to offer places to a few more children it should be allowed to expand as long as it is not affecting the present children already there.

Are you responding to this proposal as...?

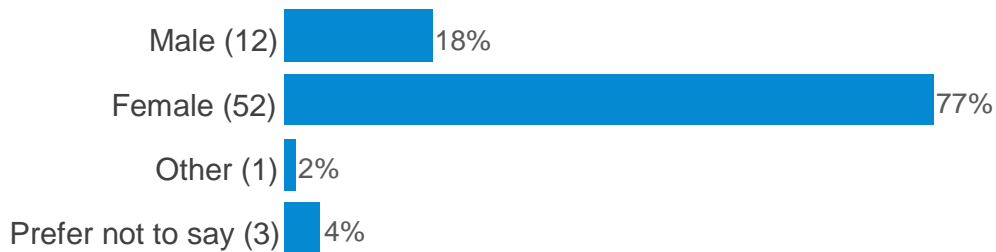

Please select one option only

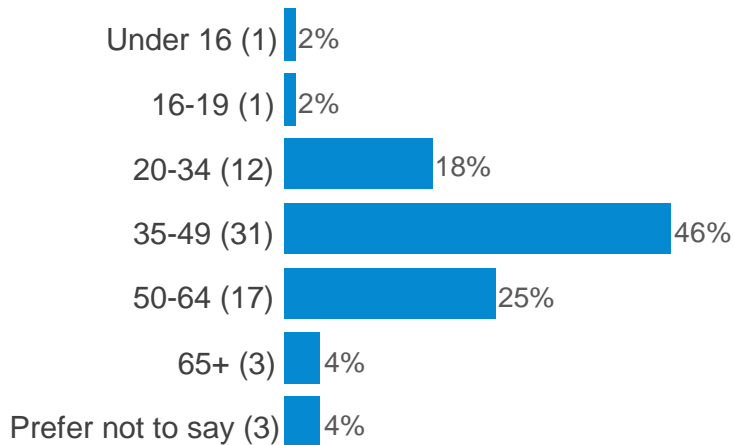

Other

- Husband of a staff member
- Parent of staff member

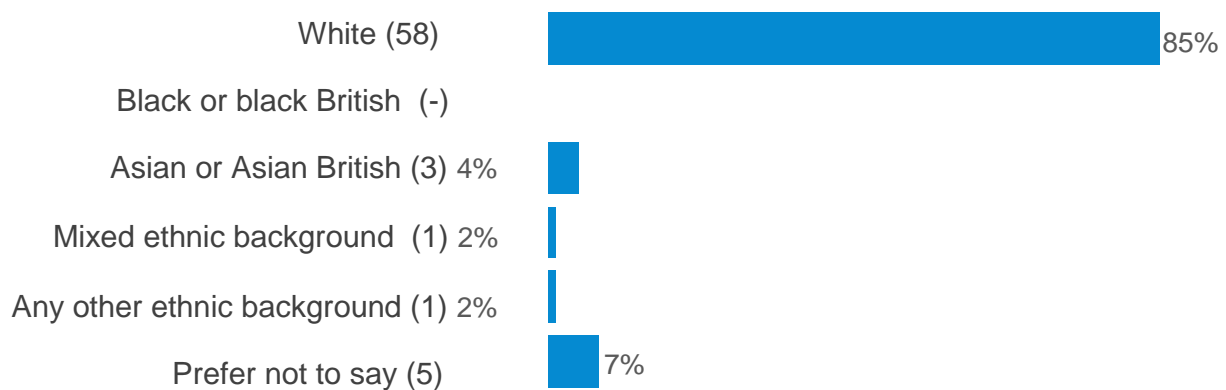

Are you...?

What was your age on your last birthday?

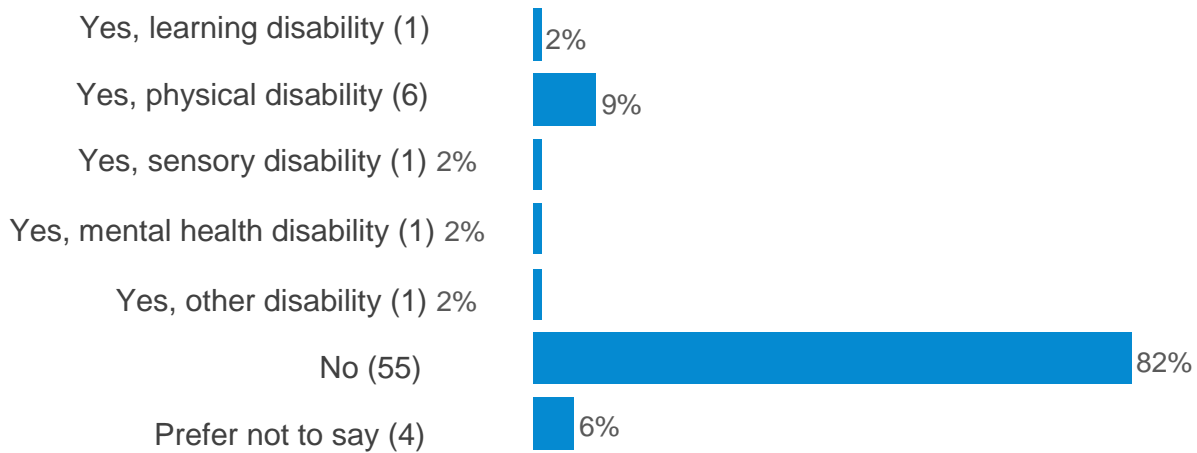

Which of the following best describes your ethnic background?

Are you a deaf person or do you have a disability?

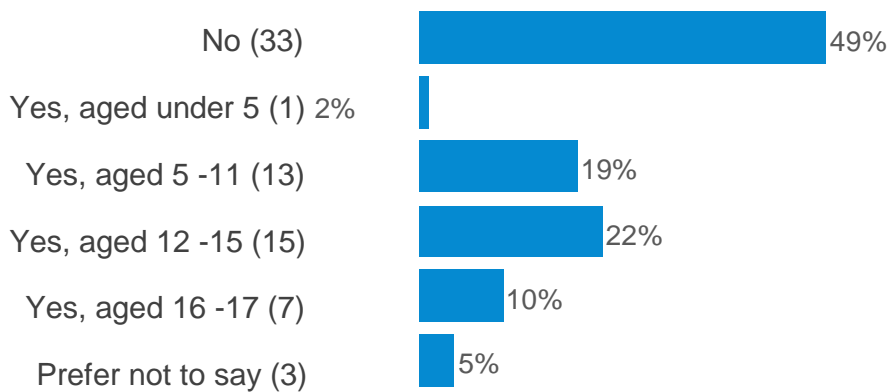

The Equality Act 2010 defines a disabled person as someone who has a physical or mental impairment, which has a substantial and long term adverse effect on his or her ability to carry out normal day-to-day activities.
