

Equality Analysis Toolkit

Kingsbury Primary School, School Lane Campus, School Lane, Skelmersdale,
Lancashire, WN8 8EH

For Decision Making Items

May 2023

Question 1 - What is the nature of and are the key components of the proposal being presented?

The proposal relates to the expansion of Kingsbury Primary School through an increase of provision on the school site.

Kingsbury Primary School is an 'Outstanding' school (Ofsted) and is a special school for pupils with generic learning difficulties, catering for pupils aged 2 -11. This additional provision will provide special school places for up to 30 children.

Question 2 - Scope of the Proposal

Is the proposal likely to affect people across the county in a similar way or are specific areas likely to be affected – e.g. are a set number of branches/sites to be affected?

The proposal may affect children who currently attend Kingsbury Primary School as the proposal means there will be an increased number of pupils attending the school with generic learning difficulties.

The proposal may also affect the children Kingsbury Primary School who currently attend during the time that any building work is carried out.

Question 3 – Protected Characteristics Potentially Affected

Could the proposal have a particular impact on any group of individuals sharing protected characteristics under the Equality Act 2010, namely:

- Age
- Disability including Deaf people
- Gender reassignment
- Pregnancy and maternity
- Race/ethnicity/nationality
- Religion or belief
- Sex/gender
- Sexual orientation
- Marriage or Civil Partnership Status

And what information is available about these groups in the County's population or as service users/customers?

This proposal will have a particular impact on children and young people with disabilities and their families. Pupils will be within the age (younger people) protected characteristics group and are likely to meet the definition for the disability protected characteristics group.

100% of respondents identified as being white which may mean this ethnicity is over-represented amongst respondents in comparison with the communities which the schools will potentially serve.

Question 4 – Engagement/Consultation

How have people/groups been involved in or engaged with in developing this proposal?

This proposal is an element of the SEND Sufficiency Strategy 2019 to 2024. Final approval for this strategy was provided by Cabinet in October 2020 following a public consultation during the summer of that year. Lancashire residents were made aware of this through notifications on Lancashire County Council website, Twitter and Facebook websites, the Local Offer website and Facebook page and via the Parent Carer Forum. In addition, a letter was sent directly to each of the following stakeholders advising them of the consultation:

- POWAR
- Lancashire Parent Carer Forum chair
- Governing bodies, proprietors and principals of a range of educational providers including pre-school, school age and post-sixteen settings
- Children, Family and Well-being Service who have responsibility for children's centres
- Youth offending team
- Local Members of Parliament
- Diocesan/Church Authorities
- The Regional Schools Commissioner

The information relating to SEND provision, presented as part of this public consultation, was updated in May 2021. The updated information was shared with various stakeholders, including families and a range of education providers during a series of meetings that took place during the summer term 2021 and which included Local Area Partnership, head teacher update and Schools' Forum meetings.

In September 2022, Cabinet approved the initiation of an informal consultation process to increase the number of places spaces at Kingsbury Primary School Skelmersdale. The increase is through the creation of additional teaching spaces by installing modular buildings on the main school site.

An informal consultation was undertaken in relation to this was carried out at between 10 October 2022 and 13 November 2022. This included an online survey between those dates on the Council's 'Have your say' website and a public consultation meeting which was held at Kingsbury Primary School on 11 October 2022. A member of staff from Lancashire County Council also attended the meeting.

The outcomes of the informal consultation were considered by Cabinet and approval was given on 19 January 2023 to undertake the formal consultation required to make prescribed alteration/significant change to the school, that is to increase the number of places at Kingsbury Primary School through additional teaching spaces on the school site.

The formal consultation began on 28 March 2023 and ended on 11 May.

The formal consultation included an online survey between 28 March 2023 and 11 May 2023 on the Council's 'Have your say' website. Statutory notices were

published in the Lancashire Evening Post on 28 March 2023. A public consultation meeting was held on 25 April 2023 at Kingsbury Primary School. A member of staff from Lancashire County Council attended.

There were five responses to the consultation and all of respondents supported the proposal to the expansion of Kingsbury Primary School through an increase of provision on the school site.

Question 5 – Analysing Impact

Could this proposal potentially disadvantage particular groups sharing protected characteristics and if so which groups and in what way? This pays particular attention to the general aims of the Public Sector Equality Duty:

- To eliminate unlawful discrimination, harassment or victimisation because of protected characteristics;
- To advance equality of opportunity for those who share protected characteristics;
- To encourage people who share a relevant protected characteristic to participate in public life;
- To contribute to fostering good relations between those who share a relevant protected characteristic and those who do not/community cohesion;

Elements of this proposal could disadvantage children who currently attend Kingsbury Primary School in the short term while works are carried out.

It is anticipated that for many pupils and more widely for children who are able to access the additional provision at Kingsbury Primary School, the impact will be positive and their equality of opportunity will be advanced.

All respondents referred to there being insufficient specialist provision for the numbers of pupils with special educational needs in Lancashire. One respondent said their child had struggled in mainstream school and that the provision at Kingsbury Primary School had been invaluable whilst another said their child would need to travel to Preston if there was not nearby provision and these provide practical illustrations of the potential positive impact of this proposal. If this proposal is approved the ability for the children and young people to have links in their local community is likely to increase contributing to advancing equality of opportunity.

Question 6 –Combined/Cumulative Effect

Could the effects of this proposal combine with other factors or decisions taken at local or national level to exacerbate the impact on any groups?

Procedures will continue to be monitored and revised as appropriate to ensure best practice.

Question 7 – Identifying Initial Results of Your Analysis

As a result of the analysis has the original proposal been changed/amended, if so please describe.

The proposal has not been changed or amended.

Question 8 - Mitigation

Will any steps be taken to mitigate/reduce any potential adverse effects of the proposal?

Steps will be taken to minimise the impact of the building work on existing pupils' education.

Steps will be taken to minimise any disruption due to any increase in traffic.

Question 9 – Balancing the Proposal/Countervailing Factors

This weighs up the reasons for the proposal – e.g. need for budget savings; damaging effects of not taking forward the proposal at this time – against the findings of the analysis.

The proposal is designed to have a positive overall impact on children and young people with special educational needs and disabilities as it reflects the overall objectives of the reforms that were introduced with the Children and Families Act 2014. Nationally there is an increase in demand for places in maintained special schools; in Lancashire between 2017 and 2022 there was a 28 % increase in demand. In addition, there are fewer SEN unit places in Lancashire in comparison with other authorities in England if they were the same size.

Families seek placements in private and independent special schools where specialist provision is not available within the maintained sector. This increases the demand on high needs block funding because for the main part special school places within the private and independent sector are more expensive. This proposal will increase the number of places available to children and young people within the South area of the county. It will support a more efficient use of the resources available to children and young people with special educational needs.

There may be some disruption while any building works are carried out however this will only be for a time limited period. The number of pupils attending the school will increase although class size should not be affected.

Question 10 – Final Proposal

In summary, what is the final proposal and which groups may be affected and how?

The proposal remains to expand Kingsbury Primary School through an increase of provision on the school site by building additional teaching space on the main school site of Kingsbury Primary School.

This proposal will enable the council to fulfil its statutory duties in relation to making the provision needed for a greater number of children and young people with special educational needs in the South area of the county.

It is likely that children and young people who attend Kingsbury Primary School currently may be affected during the time any building work is being undertaken.

Question 11 – Review and Monitoring Arrangements

What arrangements will be put in place to review and monitor the effects of this proposal?

The local authority is required to review the special educational provision and across the local area for children and young people who have special educational needs or disabilities as part of its statutory duties. This can only be achieved by monitoring the changing needs of the local population of children and young people with special educational needs and disabilities and making sure the outcomes in education, health and care are being improved as a result of the provision being made. This is one of the primary functions of the SEND Partnership Board, which is a multi-agency group with representatives from across the local area including young people, parents and carers as well as commissioners and providers of education, health and care services. The SEND Partnership Board meets every two months. It is led by senior post holders from within the council and NHS, including the Executive Director of Education and Children's Service and the Joint Chief Officer within the NHS and reports directly to the Health and Wellbeing Board.
