### Brief Summary

An update on the progress made in relation to matters previously considered by Committee.

### Recommendation

The Committee is asked to note the progress report.

### Detail

At the Regulatory Committee meeting held on 16<sup>th</sup> September 2020, Members asked whether it would be possible to be updated on the progress made in relation to matters previously presented to them.

A summary of the current progress on **all** Definitive Map Modification Order and Public Path Order applications is provided below, **including an update** on those matters which have progressed since last year's report. This data was extracted from the statutory register on 4<sup>th</sup> January 2024. The register can be viewed at <https://dmmo.lancashire.gov.uk/>

It should be noted that although the term 'applications' has been used for convenience these are not all formal applications made under Schedule 14 of the Wildlife and Countryside Act 1981 for definitive map modification orders but include some cases where sufficient evidence has been discovered or presented to the county council to indicate an investigation is appropriate. For public path orders there is currently no statutory application process but the list includes requests using

Lancashire County Council's application form or otherwise and also cases where it appears to officers that a Public Path Order is appropriate.
