

Further actions and assurances for the Committee to note, relating to items on the most recent Corporate Performance Report.

Item	Information	Action/ Assurance
<b>Recent Data and Information</b>		
<p><b>Risk and Opportunity Register Q3 2024/25 –</b> Audit, Risk and Governance Committee due 27 January 2025</p>	<p>The Quarter 3 Risk and Opportunity Register report will be published by 17 January 2025.</p>	<p>Action - Committee to note.</p>
<p><b>Corporate Performance Q2 Report 2024/25 –</b> Cabinet 5 December 2024</p>	<p>The following points raised in the executive summary have been extracted:</p> <ul style="list-style-type: none"> <li>• "The ongoing easing of some global factors and inflationary pressures continues to benefit economic development through investment and real estate confidence. Whilst some initial improvements in market conditions that directly affect aspects of local government performance and finances continue, <b>waste recycling</b> remains volatile with market forces reducing overall income levels well below previous financial performance. Whilst the levels of recycling at household waste recycling centres are above target in Q2, overall levels of residual waste collected across Lancashire remain high."</li> <li>• "Continued improvements across our <b>major development</b> and infrastructure programme as well as targeted investments see strategic development performing above target as blockages are overcome and delivery of major projects continues."</li> </ul>	<p>Action - Committee to note the extracted points linked to upcoming items on the work programme for 2024/25.</p>

	<ul style="list-style-type: none"><li>• "The backlog of <b>highway defects</b> from the original Q4 winter weather impacts has now been cleared and operating at 'business as usual' status although with higher overall defect numbers compared to Q2 last year. The longer-term impacts of consecutive wet winters, affecting the country as a whole, are captured in the annual measurements of road condition, where further investment is being targeted to address worsening trends in red ratings as we also prepare for the winter ahead."</li></ul> <p>View the report at: <a href="#">Corporate Performance Report (Item 5)</a>. <i>(To be published 27 November 2024)</i></p>
