

Environment Directorate Capital Programme 2015-16

A, B & C Roads and Footway schemes for consideration

- Rossendale

The current position for the 2015/16 capital programme

The Environment Directorate is currently preparing its capital programme for 2015/16; however the final allocation of the total amount of funding for 2015/16 will not be announced by central government until the New Year. Therefore it is not currently possible to present members with a full list of schemes planned for delivery in 2015/16 as yet. In anticipation of this, the directorate is currently preparing a draft list of schemes that will be finalised when the full allocation of funding is confirmed; this information will be shared with members before the start of the new financial year.

Members will recall from the last meeting of the 3 Tier Forum that the county council has adopted a Transport Asset Management Plan (TAMP), which sets out priorities for funding over a 15 year period. The directorate is currently preparing draft lists of schemes in line with the principles set out in the TAMP.

For the 2015/16 financial year the TAMP prioritises the ABC and footway networks. With that in mind, the directorate has prepared a draft list of schemes for ABC roads and footways. These will be funded and delivered in 2015/16, unless in the very unlikely event the final settlement is much less than anticipated.

The draft lists of ABC road and footway schemes are overleaf for your information, they are based on the 'long lists' of countywide schemes we currently have.

2015/16 A, B and C Road Schemes

The schemes planned for delivery in your district next year are highlighted in grey within the first table (in which the schemes are prioritised by the TAMP). The district's schemes are then summarised for you in the second table below.

The TAMP supports a preventative approach to maintenance and recommends the use of surface dressing to prolong the life of the asset. Many of the ABC schemes on the list have been identified for surface dressing in 2015/16. These roads have been pre patched in 2014/15 in preparation for surface dressing, and will be inspected shortly before the start of the surface dressing programme to ensure the sites remain suitable for the treatment. In addition the list includes a number of sites which require more significant and costly treatments, such as resurfacing, due to deterioration of the road surface beyond a condition which will allow surface dressing. These schemes will be addressing the parts of the network in the poorest condition.

The schemes are shown in priority ranking which will allows us to reduce the scheme list accordingly from the bottom depending on the amount of funding received.

2015/16 Footway Schemes

The list of footways schemes on page 11 is a list of those footway sites which are a priority in your district in 2015/16. They form the second year of a three year programme intended to significantly reduce the numbers of safety defects in the footway network. Further condition information relating to the footway network will be gathered by video survey over the next six months, and this information will form the basis of future programmes.

In anticipation of this survey information, the proposed footway programme has been developed on a district by district basis. Firstly, by assigning a condition rating for the road, using a 1 – 6 condition rating framework, and then by the local technical engineers using their local knowledge and experience to determine the priority of those classed as 6 (poorest condition requiring extensive major work). The engineers have also considered the schemes based on the number of reported defects, the number of enquiries they have had to deal with on a particular section of the network, and also taking into account input from members.
