### 3.1 Key changes in resources .

1 During January & February work has been ongoing with district planners to review housing numbers, this has meant changes on, at times, daily basis to the numbers of houses, the income they will generate and the build out rates. As numbers are reported to us this changes the model.

There has been no changes in Qtr1 to the overall deficit position for the full term of the City Deal to 2023/24. This remains as per the IDP at £6.357m deficit with a maximum cash flow funding of £61.224m in Year 6.

There are no specific issues that have arisen in Qtr. 1 to affect the forecast in the IDP for year 2 - this remains at £20.059m income and £15.769m expenditure after capital financing showing a net position for the year of £4.29m.

Whilst the monitoring report above suggests there are variances to the Qtr. 1 modelled position, this is due to the idp model being in years, and quarterly reports being based on equal division of this amount to report against. Work in ongoing to refine the budget figure for the current year and for future quarterly positions to be more reflective of the anticipated spend / income . There remains no variation to the total year forecast.

In relation to expenditure, whilst there is no specific changes to the timings and works to deliver infrastructure in year 2 as above, there remains the risk that future predicted house building rates may affect the timing of spending profiles for related infrastructure particularly for those delivered under S106/ s278 agreements.

In relation to income there is a full scale review underway with all partners to update the predicted changes to house building profiles etc. which have a direct impact on the timing of the CIL payments, s106, s278 agreements. It should be noted that there is no risk to the level of income from these sources as there is the extension period to recover all the income due, it is merely a timing issue.

The newly appointed CIL negotiator (Keppie Massie) has been commissioned to assess commercial viability in NW Preston along with methods of equalising financial costs of supporting infrastructure.

The current provision in the IDP for education infrastructure £28.495 in Preston and £11.203 in South Ribble may not be sufficient for the requirements - we are currently awaiting a needs analysis but the possibility of securing developer contribution to education infrastructure should be considered

Community Infrastructure and Green Infrastructure is the subject of a separate report and will be subject to project management and reimbursements on certified expenditure.

retiming of Growth Deal funding requests to city deal schemes with brought on by pass start in 16-17

working with planners in each district and on a site by site basis the level of CIL contributions per site have been reviewed . This doesn't affect the model overall as it's a timing issue predominantly but it does mean income is now forecast not to appear until year 3 of the extension period.

Level of business rates retention in Preston paid over is less than anticipated due to slower build of commercial space. Work is ongoing on the process of paying over BRR but this is a timing issue predominantly

Transport modelling is included here as a separate line as although hit supports all capital road infrastructure it is not scheme specific.

There are no specific issues that have arisen in Qtr. 2 to significantly affect the forecast in the IDP for year 2 - this is now £21.372m income and £16.162m expenditure after capital financing showing a net position for the year of £5.210m. This is an increase of 0.92m for the year , predominantly due to the increased contribution from Growth Deal in the quarter which is a re profiling of monies originally due in later years not an increase overall .

There has been no significant changes in Qtr. 2 to the overall deficit position for the full term of the City Deal. This is now showing the overall deficit to be £6.757m with a maximum cash flow funding requirement of £68.850m in Year 6. The working model now includes years 11-15( the extension period) as £7.828m of CIL income is now due up to year 13.

**General update on Q3 Year 2 ( 3-14 above also apply)**

19

Further slippage reported in housing site delivery and overall numbers, delivery affects the income profiling whilst numbers affect the overall position.

Reprofiling of HCA land receipts, both loan and grants - effect on timing only.

advancement of expenditure on Broughton By pass and PWD ; reprofiling only.

advancement of growth deal monies in 15-16. reprofiling only & partly due to spend on related projects.

addition to the model of the £7m LCC reserve commitment relating to Preston Bus Station.

**General update on Q4 Year 2 ( 3-19 above also apply)**

20

Local Growth Contributions replaced by LCC capital programme payments. This is as agreed to help with Growth Deal slippage and will be reverted in future years . No impact on the amounts from each source over the life of city deal.
