Potential delivery of additional one-off savings Potential for increased diversion from landfill at reduced costs. However, an increase in residual waste arisings of 4% is being forecast (compared to a previously assumed 1%) which is resulting in forecast overspends. This is partly offset by forecast underspends in a number of other areas including garden waste composting. The high cost of insurance premiums at the waste recovery parks, and deflated markets for the sale of recyclable materials, continue to put pressure on the waste budget.
